

Program Details

ARTICLE NUMBER

ggu-04-007

OPERATING SYSTEM

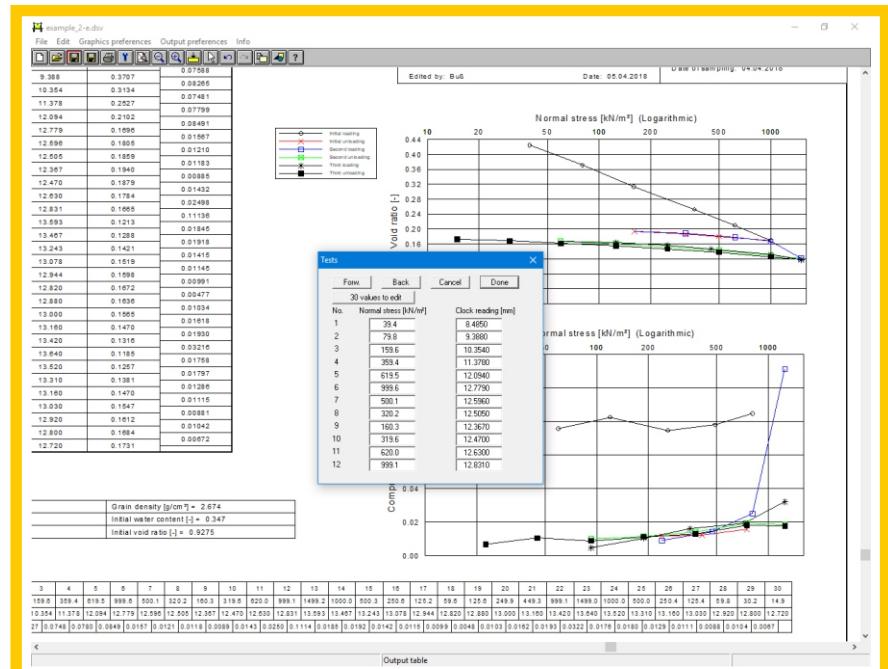

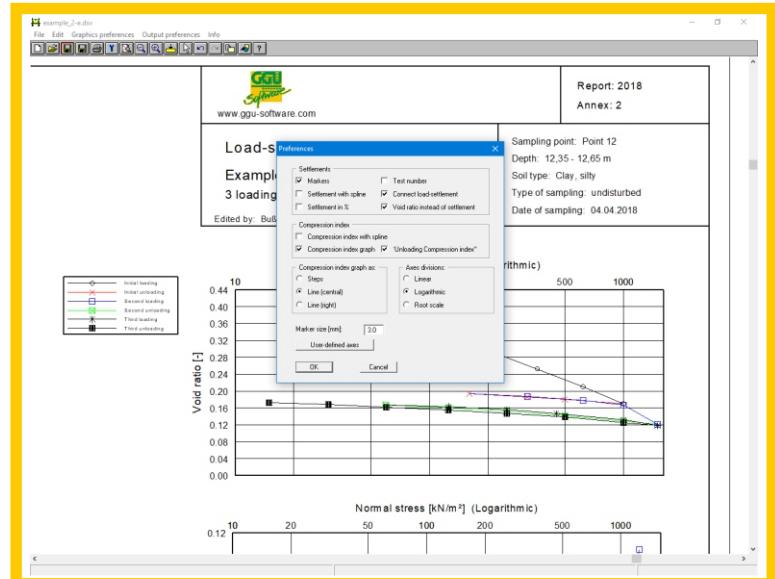

Windows 7/8/10

Description

GGU-OEDOM – Evaluation and visualisation of compression tests to determine deformation behaviour due to stress changes with restrained lateral strain.

Capabilities:

- Input of 30 tests maximum
- Import Wille, Micronic or Straßentest ASCII formats
- Determine the constrained modulus, including calculation with initial height
- Evaluation with compression indexes
- Visualisation of load-settlement curve with settlements in [%] oder [mm]
- Various visualisation options for constrained modulus curve
- Various visualisation options for compression index curve
- Legend with symbol key
- Axis divisions (normal stress) linear, logarithmic or to a root scale
- User-defined axis values
- Tabular presentation of test data
- Result output in log format
- Test output in ASCII format
- User-designed output sheet
- Print or copy screen sections, e.g. for transfer to a word processor
- Integrated Mini-CAD system for additional annotation of graphics
