Application for the Activation of a Student Licence for GGU Software

We offer you the opportunity to use out GGU programs for work involved in your university course. To allow this, we activate a so-called CmActLicense for the GGU software on your computer. If you are working on a **virtual Windows OS,** you will **need to purchase a CodeMeter stick** (USB dongle)!

Please fill in the fields below and have the ***application stamped and signed by your supervising institute***. Return the application and a certificate of matriculation to us by fax or scanned by email. After you have returned the form, you will receive an e-mail containing an internet link for licence activation and all necessary information.

> **IMPORTANT:** Please keep this e-mail with the internet link and information; this will allow you to return the licences via the internet link and reactivate them on a different computer.

To
Civilserve GmbH
Am Hafen 22
38112 Braunschweig

Please send back via e-mail to: support@ggu-software.com

I hereby declare,

- that GGU student licences will only be used for work involved in my university course.

- that commercial projects/assignments will not be undertaken without the correct licensing.
